PLATFORM SESSION II
Tuesday, April 4, 2017 • 7:30 am - 12:00 pm
Moderators (before the break): Y. Joyce Liao, MD, PhD & Steven A. Newman, MD
Moderators (after the break): Laura Balcer, MD, MSCE & Ruth Huna-Baron, MD

7:30 am - 7:45 am  Clare Fraser
Retinal Vascular Complications in Obstructive Sleep Apnea

7:45 am - 8:00 am  Melinda Chang
Optical Coherence Tomography Angiography in Patients with Migraine with Aura
Demonstrates Deceased Macular Vessel Density

8:00 am - 8:15 am  Shira Simon
Reduction of the Photopic Negative Response in Optic Neuropathy: Assessment Using a
New Handheld Device

8:15 am - 8:30 am  Michael Wall
The Useful Dynamic Ranges for Visual Field Progression with Stimulus Sizes III and V

8:30 am - 8:45 am  Myriam Ladaique
Seasonal Variation In Non-Visual, Light-Dependent Responses Mediated By Melanopsin

8:45 am - 9:00 am  William Hills
The Study of Posterior Cortical Atrophy Using Online Surveys and Social Media

9:00 am - 9:15 am  Agnes Wong
The Effect of Amblyopia on the Developmental Calibration of Sound Localization

Lanning Kline, MD, Editor-in-Chief & Jason Roberts, PhD, Managing Editor

9:30 am - 10:00 am  Coffee Break

10:00 am - 10:15 am  Catherine Vignal
Phase I/IIa Visual Acuity Outcomes 1.5-Years Post-Treatment with rAAV2/2-ND4,
Investigational Gene Therapy for ND4 LHON

10:15 am - 10:30 am  Patrick Yu-Wai-Man
Metabolomic and Biomarker Profiling in Mitochondrial Optic Neuropathies

10:30 am - 10:45 am  Konrad Weber
Strabismus Measurements with Novel Video Goggles
