

The Department of Ophthalmology at Rhode Island Hospital and Hasbro Children's Hospital, the principal teaching hospital for the Warren Alpert Medical School of Brown University, is seeking a fellowship-trained neuro-ophthalmologist for a full time faculty position.

The responsibilities of this position include clinical care of ophthalmology patients, didactic and clinical teaching of residents and medical students in our residency program as well as within the Departments of Neurology and Neurosurgery, and developing basic or clinical research activity. The newly created Norman Prince Neurosciences Institute at Rhode Island Hospital along with the Brown Institute for Brain Science will provide outstanding opportunities for research and teaching. Applicants must have completed and accredited ophthalmology residency, a fellowship in neuro-ophthalmology, be Board eligible or Board certified in Ophthalmology, and eligible for medical licensure in Rhode Island.

Candidates interested in this opportunity should send a current CV and cover letter to:

Michael E. Migliori, MD
Ophthalmologist-in-Chief
