

# The NANOS Women In Neuro-Ophthalmology (WIN) Committee

Our purpose is to mentor female members of NANOS and guide women planning careers in Neuro-Ophthalmology

## What does WIN do?

1. Host the WIN Forum at the NANOS Annual Meeting
2. Create internet presence to support WIN members between meetings by use of the WIN Listserv, development of internet-based networking and NANOS WIN webpage content, and strengthening relationships among NANOS members and with outside groups such as WIO, AAMC, GWIMS, etc.
3. Promote active involvement of women in NANOS, encouraging WIN members to become involved in NANOS committees and leadership and apply for NANOS Fellowship
4. Advise and assist women regarding or planning careers in neuro-ophthalmology, seeking academic promotion, and negotiating job contracts
5. Foster collaborations in research and teaching
6. Work with Development Committee to obtain funding for future programs
7. Develop tools to help WIN members with career planning, including negotiations

Please join us for the 2022  
WIN Forum
